

embrace . engage . empower

**sow a seed
cultivate a life**

Introducing
TAMSYN JAPHTA

AGE: 17
CURRENT GRADE: 12
COMMUNITY OF ORIGIN: Silvertown
BELIEF SYSTEM: Christian

I am the first girl in my entire family to be in grade 12 and actually have the chance to finish my matric.

That motivates me to be an example to my younger cousins.

Challenges teens face today: I think it is the way the society looks at us young people and the lack of support from their families. Sometimes even their own families bring them down.

interACT- The reason I want to be part of this program is to learn things I don't know, meet people who are different than me so I know what I need to reach my goal.

FUTURE PLANS AND NY

I hope to study Tourism Law and get into the University of Western Cape. In the future I would like to be able to do community programs that will help children and young people achieve their potential.

join us in investing in the greatest assets on earth; human lives
